Providing and Servicing Your Energy Solutions

At WB Electric, Inc. we are committed to finding ways to help our community, our environment, and our business partners. Our engineers have designed a solution that incorporates the improvements of Photovoltaic Solar Panel technology as well as the innovation of Vertical Axis Wind Turbines with advances in Electric Vehicle Charging technology to deliver a favorable return on your investment.

Our team of Professional Solar Installers will ensure your solution maximizes efficiency while maintaining the aesthetic charm of your property.

Whether you are buying a Nissan Leaf, Chevy Volt, BMW Active E, Tesla or a Ford Focus, you can count on WB Electric to provide you with a high value solution that will work within your budget.
